INDEX

Aging, tests in Hiroshima subjects, 11

Amino acids in skin surface film, 355

Arterial and venous blood counts in bacterial endocarditis, 505

Atkins, E.: (see Bodell, P. T.)

Atkins, E.: (see Briggs, R. S.)

Atkins, E.: (see Hadley, W. K.)

Atkins, E.: Annotation, 544

Atkins, E.: (see Hollingsworth, J. W.)

Atomic bomb and Hiroshima, 61

Bacteria removed from blood in bacterial endocarditis, 505

Bacterial endocarditis, 505

Bacteriophage type in staphylococcal infection, 323

Baxter, J. D., Biltz, R. M., and Pellegrino, E. D.: The physical state of bone carbonate: A comparative infra-red study in several mineralized tissues, 456

Beeson, P. B.: Jaundice occurring one to four months after transfusion of blood or plasma. Report of seven cases **(Reprinted),** 491

Beeson, P. B.: (see Bennett, I. L., Jr.)

Beeson, P. B., Brannon, E. S. and Warren, J. V.: Observations on the sites of removal of bacteria from the blood in patients with bacterial endocarditis **(Reprinted),** 505

Beeson, P. B., Rocha, H., and Guze, L. B.: Experimental pyelonephritis: Influence of localized injury in different parts of the kidney on susceptibility to hematogenous infection **(Reprinted),** 549

Bennett, I. L., Jr. and Beeson, P. B.: Studies on the pathogenesis of fever. II. Characterization of fever-producing substances from polymorphonuclear leukocytes and from the fluid of sterile exudates **(Reprinted),** 527

Bibliography of Paul Bruce Beeson, 556

Biltz, R. M.: (see Baxter, J. D.)

Blood, studies on infectious mononucleosis, 1

Blood pressure (see Hypertension)

Blood transfusions and jaundice, 491

Bodel, P. T. and Atkins, E.: Studies in staphylococcal fever. V. Staphylococcal filtrate pyrogen, 282

Bondy, P. K.: Paul Bruce Beeson, 487

Bone carbonate, 456
